Indians Get Food Parcels

McMURRAY, (BUP) — Poverty stricken Indians on the Janvier reserve, 50 miles southwest of Fort McMurray are almost all on relief because of the disappearance of game from the district.

Officials of the Edmonton Indian agency said Friday that food has been shipped into the district but that the only solution to their plight is construction of a dam that would restore trapping and hunting.

The dam, according to officials, would have to be built at Bohn Lake through co-operation of the provincial and federal governments and the Ducks Unlimited organization.

E. W. Burkell, provincial manager of Ducks Unlimited, said Friday that representatives of his organization and the federal Indian agency would make an on-the-spot investigation next week.

They will study the feasibility of a dam, a water conservation project, and the problem of stocking the area with game.

Lac la Biche News Briefs

Mr. and Mrs. S. Kelly and family have returned from a three weeks' vacation spent at Vancouver and Seattle where they visited with friends and relatives.

Miss Maureen Kelly, who was achievement winner of the Lac la Biche 4-H Club, spent a week at the Vermilion School of Agriculture prior to going on holidays with her parents.

Mrs. H. McKaskill, Mrs. J. Kimm, Mrs. A. Varze, Miss Rita Peltier and Miss Louise L'Heureux were joint hostesses at a miscellaneous shower held at the home of Mrs. J. Hayduck in honor of bride-elect Miss Georgette Amiot. Approximately forty guests were present and Mrs. Lila Griswold entertained by various piano selections.

Miss Druscilla Lloyd McKriss, who for the past three weeks was visiting her parents, Mr. and Mrs. E. Lloyd, has returned to Claresholm Air Force Station.

Mrs. Ruth Harman spent a few days in Edmonton visiting her sister, Mrs. W. Richards.

Miss Joan Kibbe has returned to continue her High School studies after spending the summer with her parents. She is residing at the home of Mr. and Mrs. A. Protor.

C. E. Sage and two executives representing the National Elevator Co. have been in Lac la Biche recently making a survey, with the intention of building an elevator.

H. Lobay, MLA, has sent in maps of the district and information pertaining to the sufficient growth of grain to warrant another elevator in the town. Farmers and businessmen are hoping that the company sees fit to build, as elevator facilities are scarce in this district, necessitating the hauling of grain some 50 miles out of the town.

Church Notices

UNITED CHURCH OF CANADA
Minister D. A. Greenough
Sunday, Sept. 6
11:00 a.m.—Morning Worship
Grandin—2:30 pm.
Rich Lake—4:00 p.m.

No Sunday school, as previously stated, due to the polio ban.

Rev. Dr. C. F. Johnson, Ph.D., Professor of Church History, of St. Stephens' College, was guest speaker at the United Church last Sunday.

BACK IN HARNESS

BRITAIN'S PRIME MINISTER Winston Churchill, pictured at 10 Downing Street during his recent extended rest. Mr. Churchill is expected to meet with his cabinet this week — his first meeting with them in more than seven weeks.

Athabasca Exhibition Huge Success
Splendid Variety Of Entries Shown

The Athabasca District Agricultural Society's annual exhibition held at the Elks sports grounds drew a crowd of nearly 2000 people. The directors have intimated that it may be a two-day event next year due to the large entry list which delays the judging.

The ball game, all stars from Lac la Biche league against the all-stars of the greater Athasca league was a thrilling game with Lac la Biche being the victors.

Nine machinery companies took part in the machinery exhibit, making this part of the show well worth seeing.

The Health Unit was responsible for some very fine films shown to some 900 people in the school room. Over 200 pamphlets were handed out.

The Dept. of Agriculture and the Shorthorn Club had splendid displays too.

The display of flowers and vegetables was particularly pleasing to the eye as was the variety of handwork and baking displayed by both juniors and adults.

Below is the list of prize winners in the Needlecraft Section of the bench show only.

Crocheted or knitted afghan—1, Mrs. Percy Taylor.

Crocheted bedspread—1, Mrs. George Johnson.

Crocheted tablecloth, not less than 45 inches—1, Mrs. Aubrey Blair; 2, Mrs. A. Hoaglund; 3, Mrs. Joe Clark.

Applique quilt, hand quilted—1, Meanook WI; 2, Mrs. I. P. Stonehocker.

Embroidered centrepiece, all white—colors used, entry disqualified.

Chesterfield or buffet set, crocheted—1, Mrs R. Gunderson; 2, Mrs. M. Kavaluk; 3, Mrs. Joe Guay.

Embroidered runners—1, Mrs M. McCordick; 2, Mrs. Fred Romaniuk; 3, Mrs. H. Patry.

Embroidered tea cloth—1, Mrs. John Walli; 2, Mrs. Percy Taylor; 3, Mrs. W. A. Rose.

Table cloth, practical, no embroidery—1, Mrs. W. A. Rose; 2, Mrs. Olga Poczynek.

Pair embroidered pillow cases, in three colors—1, Mrs. M. McCordick.

Crocheted insertion, pair pillow cases—1 Mrs. R. Gunedrson; 2, Mrs. Joe Clark; 3, Mrs. Wm. Kruger.

Crocheted doilies, 3 designs—1, Mrs. A. Hoaglund; 2, Mrs. John Dupilka; 3, Mrs. George Johnson.

Crocheted apron—1, Mrs. J. Leskiw; 2, Mrs. Bert Aloisio; 3, Mrs. B. VanMalsen.

Cut work, any article—1, Mrs. Percy Taylor; 2, Mrs. M. McCordick.

Pair knitted mitts—1, Mr. P. Brown; 2, Mrs. M. McCordick.

Plain knitted socks—1, Mrs. H. Bahry; 2, Mrs. P. Brown.

Fancy knitted socks—1, Mrs. John Walli; 2, Mrs. R. V. Hamilton.

Child's knitted dress—1, Mrs. Bert Aloisio.

Baby set, knitted jacket, bootees and bonnet—1, Mrs. Fred Kruzyk.

Adult's knitted sweater—1, Mrs. Percy Taylor; 2, Mrs. John Walli; 3, Mrs. Marion Mellot.

Siwash sweater—1, Mrs. W. J. Leskiw; 2, Mrs. M. McCordick; 3, Mrs. John Dupilka.

Best article made from feed or flour bag—1, Mrs. Ed. Shank; 2, Mrs. S. Taylor; 3, Mrs. P. Brown.

Best article made from used woollen underwear—2, Mrs. Ed. Shank.

Women's house dress—1, Mrs. John Walli.

Kitchen apron, print—1, Mrs. Howard Stafford; 2, Mrs. B. VanMalson; 3, Mrs. Bert Aloisio.

Cushion cover—1, Mrs. R. N. Russel; 2, Mrs. Wm. Kruger; 3, Mrs. Mike Kavuluk.

Hooked rug—1, Mrs. Percy Taylor; 2, Mrs. K. Jackson; 3, Mrs. H. Patry.

Braided rug—1, Mrs. Howard Stafford; 2, Mrs. P. Brown.

Rug, any other kind—1, Mrs. John Walli; Mrs. B. VanMalsen; 3, Mrs. Percy Taylor.

Ukrainian cross stitch, any article—1, Mrs. Fred Romaniuk; 2, Mrs. Joe Clark.

Any other European needlework—1, Mrs. T. Mazaruk; 2, Mrs. Mike Kavuluk.

Indian bead work—2, Mrs. Marion Mellot.

Herbert Erickson Wins Another Archery Award

The Canadian National Archery Associaion held an annual tournament at Calgary during the week of Aug. 16-22. This attracted participants from as far east as Toronto, and Vancouver to the west, as well as several western American states.

Herbert Erickson of Lac la Biche again won honors when he tied for first place in the Archery Golf competition with a score of 61 for 18 holes This is a rather remarkable feat considering that this was the first time in his life that Mr Erickson ever tried this sport. He claims it is highly interesting and far surpases ordinary golf. He is hoping to be able to further continue this line of archery.

Mr. Erickson also took the first place in Field Archery for Alberta. However, he stated that there were far too many excellent archers there for him to cop the laurels for the dominion.

Wye Benefit Auction

WYE — The Kreamer family, who recently lost their home by fire will soon have a new one. An early start has been made possible through the unselfish generosity of the folks in this district and surrounding areas.

The basement has been excavated, 2,200 feet of lumber donated by friends and others are waiting to lend a hand in the erection of the building as soon as plans have been completed.

At a social gathering in the Wye School on Saturday evening, the Home and School Association presented the Kreamers with the proceeds of the Auction Sale held for their benefit on August 5. The cheque amounted to $1,615.

The Wye Home and School Association want to thank all those who so generously responded in the hour of need.

Hospital Report

Patients admitted to St. Catherine's hospital from Aug. 19 to 26 include:

Steve Pawluk, LLB.; Mrs. Steve Pawluk, LLB.; Stephanie Pawluk, LLB.; Vera Gladu, LLB.; Denise Ulliac, Gourin; Patricia La Forge, Edmonton; Norbert Beauregard, Kikino; Shirley Fischer, Charron; Allan Gordey, Noral; Alvin Dakin, Gourin; Mr. Raymond Shephard,, Mile 168; Edward Falardeau, LLB.; Lucien Ulliac, Gourin.

Births: To Mr. and Mrs. Fred Johnson, Grassland, Aug. 21, a daughter; to Mr. and Mrs. Roland Vincent, Aug. 22, a son; to Mr. and Mrs. Nick Luc, Egg Lake, Aug. 23, a daughter.

Tractor Crashes Through Bridge; None Hurt

CASLAN — Mr. John Sawka had a mishap with his tractor when crossing a bridge over the Buffalo Creek coming from Mr. J. Bury's. When the tractor was on the bridge a streamer broke and the tractor fell into the creek. The Krawchuks and Burys came to his aid with two tractors and a caterpillar and succeeded in getting it out of the water. It was reported there was about five feet of water in the creek where they finally pulled it out.

There was considerable damage to Mr. Sawka's tractor. The bridge was a privately built one. Although it has been asked a good many times for government bridges to be built across the river and creek, so far this has not been done.

This is a much needed road to take farm machinery across, as well as an outlet to town for some people.

Fire Threat Serious In North

The forestry branch of the government said last week that rain was badly needed in northeastern Alberta, where several fires are still raging and the danger of new outbreaks is serious.

Volunteer workers are "digging out" the remainder of a chain of fires which have been threatening the town of McMurray, while seven men are patrolling the ground fires near Fort Smith with a tank truck. A blaze which broke out earlier this week near Manning is reported under control.

Grassland Farmer Has First Barley

BOYLE — Matt Sawchyn, of Grassland, Alta., delivered to the Searle Grain Co. Ltd., at Boyle; recently, the first 1953-54 crop of barley, weighing 50 pounds to the bushel.

This is his sixth straight year to take honors for first deliveries. His earliest delivery was Aug. 7 in crop year 1952-53.

Busy Round Of Activities Mark Family Reunion

By MRS. CHEVIGNY

PLAMONDON—This little village is all wrapped up in excitement these last weeks, as we were all so happy to greet our visitors from the United States.

Let us here mention all their names: Mrs. Simon Hahnenberg from Lake Leelanau, Mich.; her brother and his wife, Mr. and Mrs. Ernest Plamondon, from Lake Leelanau, Mich.; Mr. and Mrs. Georges Desnoyers, also from Lake Leelanau, Mich.; Mrs. E. C. Humphreys, of Louisville, Kentucky; Mr. Abraham Duperron, from Wyandotte, Mich.; Mr. Joe Cheirguy, from Portland, Oregon.

Mrs. Hahnenberg (Isabelle) is the daughter of our oldest resident, Mrs. Matilda Plamondon, age 83, who pioneered here in 1908. You can well imagine the joy of all to meet again. Mr. Ernest Plamondon is her son, the second of her nine sons, the Plamondon brothers, who are Isidore, Ernest, Edward, Frederick, Valmore, Clifton, Emile, Albert and Joey. All the brothers reside here excepting the eldest, Isidore, who resides in Vancouver, Wash., and Ernest, residing in ake Leelanau.

The sisters residing here are Mrs. Octave Chevigny (Dellamen) and Mrs. Frank Ulliac (Alwise) from Gourin. Mrs. Humphrey is the visiting sister of Mrs. Edward Plamondon; Mr. Abe Duperron is a brother-in-law to Edward; Mr. Joe Chevigny is a brother to Mr. Octave Chevigny in Plamondon, also Frank Chevigny of Lac la Biche.

Now that you have the names of all concerned, here are some of the happy reunions of both visitors and close relatives that gathered them all. The first evening, Aug. 8th, which was the date of the arrival of the Lake Leelanau group and also the 64th birthday of Mrs. Hahnenberg, was spent at the home of the aged mother. How happy she was to welcome home her little flock once more!

The second evening was at the Trio Cafe, home of Mr. and Mrs. Edward Plamondon. Each brother and sister in turn entertained with music and singing. What fun! Everyone were so happy to be together again—such a sweet recollection of childhood days. Just to gaze into each others eyes you could see the joy beaming there.

The third evening was spent at the home of Mr. and Mrs. Frederick Plamondon. Again you see rejoicing everywhere. Their own children and descendants are there, and many relatives come to see the visitors and the happy family together — the brothers, sisters and their dear mother and step dad, Mr. Philip Plamondon.

And the lovely evenings go on, preceded by lovely banque's in each home. The fourth was at the home of Mr. and Mrs. Octave Chevigny, the fifth at Mr. and Mrs. Valmore Plamondon's, the sixth at Mr. and Mrs. Emile Plamondon's, the seventh at Mr. and Mrs. Clifton Plamondon's; next at Mr. and Mrs. Joey Plamondon's, then at Mr. and Mrs. Frank Ulliac's.

Mr. Albert Plamondon, temporarily residing at St. Albert, will have them upon their way back.

During this time, the visitors called on the different uncles, having lunch with them. And in between lovely family gatherings, on Sunday, Aug. 16, the venerable old mother sponsored a banquet at the Trio Cafe for all her children and the visitors included. It happened to be Ernest's 62nd birthday and the eve of her own 83rd birthday.

Words fail to effectively describe this special event. Our dearly beloved pastor, Rev. Father Ricard, honored the occasion by his presence. In words that touched deep down into the hearts of each one present, he spoke of this lovely famliy reunion. We were sorry our dear Father St. Ornault was unable to assist, as he was called away at that time. We missed him.

In addition to the Plamondon family, Mrs. Ernest Plamondon has two brothers here, Mr. Esdras Belanger and Mr. Felix Belanger. One lovely evening was spent at Mr. and Mrs. Felix Belanger's, and a gathering will be held at the home of Mr. and Mrs. Esdras Belanger shortly before the visitors depart, which seems to be next week some time.

And now, what do we hear for Monday—wedding bells—as Miss Jeanne Louise Chevigny will be married to Mr. Walter Middleton. We will tell you more about that next week, for all the visitors and relatives will reunite for this occasion.

If you do not have a publicity agent, you will have to advertise to get maximum business.

Frains News Briefs

Mrs. Walter Nahorney, Albert and Joanne motored to St. Paul for the week-end and brought Lawrence back home for the busy season.

Mr. Kolmatisky from Edmonton is visiting with his son and family for the summer holidays.

Mr. Renald from Edmonton visited with friends in the district.

Mr. Budney, Edwin and Evelyn motored to the city to do some shopping.

Mr. and Mrs. Letwin had unexpected friends visit them last Sunday.

Lawrence Nahorney was in the city for a business trip.

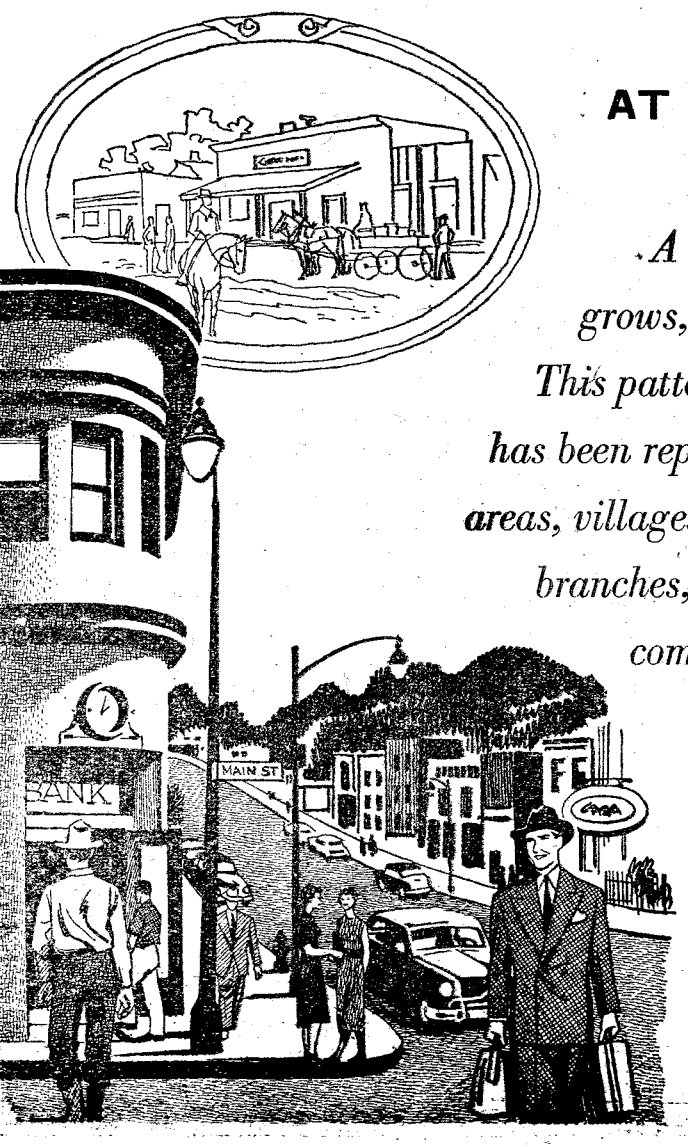
QUESTIONS and ANSWERS about Cancer

QUESTION: Will worry cause cancer?

ANSWER: No. Cancer is not influenced by any mental process. It is a biological growth of tissue.

Write for free literature
CANADIAN CANCER SOCIETY
11323 Jasper Avenue, Edmonton



AT A CORNER ON MAIN STREET

A community springs up and, as it grows, a branch bank opens its doors. This pattern, basic in Canada's development, has been repeated again and again in pioneer areas, villages, towns and cities. Through local branches, the chartered banks bring to small communities, as well as large, the same broad range of banking service.

There are now 3,800 branches of Canada's chartered banks serving the banking needs of Canadians, 700 opened in the past ten years.

THE BANKS SERVING YOUR COMMUNITY

$1 for— EMBARRASSING MOMENTS

The Editor will pay $1.00 for every item published on "The Most Embarrassing Moment of My Life". To qualify items must be true personal incidents. Address "Embarrassing Moments," P.O. Box 4430, South Edmonton.

One day I went to visit at the neighbors. As we were leaving she said goodbye to me. Without thinking, I said, "Do come again some time." Was I ever embarrassed when I realized what I was saying! E. L. C.

One day in school, when I was in Grade 2, I was talking with some other girls about our teacher who was getting married. Without thinking that the teacher might be around I said, "She sure must like him, because I saw them walking hand in hand last week in town." Just as I said that our teacher walked in and surveyed us with a curious eye. Gee, I was never more embarrassed in my life! D. G.
Breynat, Alta.

THE LIGHTER SIDE

Easy To Get

"I won't get married until I find a girl like the one who married grandpa."

"Huh! They don't make women like that today."

"That's funny. Grandpa only married her yesterday."

Pity the Teacher

As the class had been told to write an essay on Lincoln—one of the pupils wrote—"Abraham Lincoln was born on a bright summer day, the 12th of February, 1809. He was born in a log cabin that he had helped his father to build."

Present and Past

A night watchman heard noises in the dark warehouse. Drawing his revolver, he went to the door and called:

"Come out with your hands up, so I can see who you are. If you don't, I'll come in and see who you were."

Not Dangerous

"I suppose now that you are married, you will be taking out some insurance?" the agent asked the bridegroom.

"Oh, no," he replied, "I don't think she's dangerous."

Foolish Question

"Daughter," said Dad, sternly, "I hope when you are with that young man there is none of this petting and kissing foolishness."

"Oh, be yourself," retorted daughter. "We're not married, and you can't expect us to spend all our time scrapping when we are together, the way you and mother do."

Witnesses To Convene At Barrhead

EDMONTON—It was announced recently by Mr. D. E. Held, circuit representative of the Watch Tower Bible and Tract Society, that Jehovah's Witnesses will hold their next area assembly at Barrhead, Alberta, September 18, 19 and 20.

Barrhead's municipal auditorium has been engaged for the assembly; and it is expected that close to 1000 delegates from central and northern Alberta will attend.

Mr. Held stated that the problem of finding accommodations to house such a large delegation at Barrhead is not a small one. He said that an advance contingent of witnesses will begin a house-to-house search for rooms in Barrhead this week-end. Mr. Held viewed the problem optimistically when he said "Edmonton has accommodated over 3000 of us. Vegreville was able to care for our whole delegation of 800 ministers last year. I feel sure that the kind people of Barrhead and vicinity will open their homes to us so that everyone can be accommodated.

Plans have been made for an orchestra, a cafeteria, a baptismal ceremony and a three-day service program.

The assembly will reach its highest point of interest during the public address Sunday, Sept. 20th, at 3 p.m. The speaker, Mr. J. H. Nathan, from Toronto, will address the public on the subject "What Is Your Destiny?"

$1 for Favorite RECIPE

DATE SQUARES

2 cups rolled oats
1 cup brown sugar
½ cup flour
¾ cup butter
1 tsp. soda

Rub together, remove 2 cups of mixture, put remainder in bottom of pan. Spread on filling and put the rest of the mixture on top.

Filling: 1 lb. dates, 1 cup water, ½ cup brown sugar, ½ tsp. salt. Cook and when cool cut in squares.

Date Squares are an old favorite and a $1 cheque for this recipe has been sent to Mrs. M. M. Daly of Bremner, Alta.

Labor Day

Monday, September 7th, the first Monday in the month, is Labor Day.

In its original conception, Labor Day was one set aside to honor the industrial worker and the achievements of trade unions. Today it is still marked officially only by organized labor. Everyone else takes a holiday, but pays little attention to the significance of the day itself.

Yet the day has a meaning for all of us. Trade unions themselves would be the first to acknowledge that the day of outright hostility between labor and management has ended; that narrow-mindedness on both sides has no place in the building of a greater Canada. And just as the factionalism of yesterday is outdated, so has the significance of Labor Day moved with the times.

On September 7th, every employed person in Canada, from the company president down to the office boy, will be taking a holiday. It is these millions of people, whether they belong in the labor or the management sections of industry, who are contributing to the building of this country.

There lies the real meaning of Labor Day —Canadians, laboring to achieve a better, more prosperous Canada; a finer place in which to live and bring up their families. Let there be trade union parades and celebrations on September 7th, but let there also be a moment's reflection by each of us on the broader concept of labor in Canada—the creation by our own free efforts of the kind of country we want our children to inherit.

Grain Storage Urgent

It looks as though the need of storage space on the farm has become a regular annual requirement. The day when a farmer could haul his whole crop direct from thresher to town elevator is gone. Therefore, adequate grain facilities have become a necessary part of the equipment of every farm.

A good farm granary will last for many years. It isn't like a piece of machinery that wears out or becomes obsolete in a few short years. Therefore, in considering the initial cost the grain producer should remember his investment will stand up for a long time to come.

Good and adequate farm granaries can be expected to pay for themselves in a few years because they will tend to eliminate loss of grain and grade while in storage on the farm. If built in small units, they can be strategically placed right in the fields, and save a great deal of haulage expense.

Whatever way you look at it, the building of permanent farm grain storage facilities is a good idea. And there's no better time to do it than right now.

Success Of Legislation

The Price Maintenance Bill which was passed by the Liberal Government during the second Session of 1951, and opposed so strenuously by the Opposition, has turned out even more successful than was anticipated by its most ardent supporters.

The dire disaster predicted by the Opposition has failed to materialize. They claimed it would ruin half of the small retailers across Canada, but instead of that happening, business has greatly increased and people have been able to buy more goods at a lesser price; so there has been a larger turnover for the retailer at a fair profit.

It has also allowed those dealers who were over-stocked to put on a sale and mark their goods down as much as they wished without either intimidation or interference from the manufacturer.

The net result has been good for the manufacturer, the dealer and the consumer.

Note And Comment

If there is any truer measure of a man than by what he does, it must be by what he gives.

The Bible Today

In the world ye shall have tribulations: but be of good cheer; I have overcome the world.—John, XVI; 33.

Is Mossadegh Out?

Fast and furious has been the flow of events in Persia, which country has the modern name of Iran.

Premier Mossadegh who was duly elected in the democratic method to head the government Iranian Prime Minister under the royal Shah (Persian name for King) is now in prison. He was put in jail by order of the Shah after attempting to banish the monarch forever to the role of exile.

The Shah, with his own appointed Prime Minister is now heading the Iranian Government. He says Mossadegh the man who could fight and cry all in the same moment left the country virtually bankrupt. We can hope that with the former Premier in jail the Shah will re-establish good relations with the Western powers and start selling Iranian oil to bolster the fallen fortunes of the country.

The question now is, what of the future of Mossadegh? Is he calmly weeping in a corner of his prison cell, or is he figuratively threatening to regain and retain the power he so recently wielded?

He may be down — but may not be out.

Union Of Two Great Implement Firms

It has been jointly announced by Mr. James S. Duncan, CMG, President of the Massey-Harris Company, Limited on behalf of its Board of Directors, and by Mr. Harry Ferguson, Chairman of the Harry Ferguson Companies, that the two world-wide organizations which they represent have agreed to amalgamate and to operate in the future under the name of Massey - Harris - Ferguson Limited.

The uniting of the Harry Ferguson interests, whose tractors equipped with the revolutionary Ferguson system and mounted implements have blazed a new trail throughout the world, and the 106 year old Massey-Harris Company which pioneered the self-propelled combine in every country where wheat is grown, and whose development and progress has been so spectacular in recent years, is probably the most important news in the farm equipment industry in the present century.

It will not only bring together two progressive organizations, each of which has made an unprecedented contribution to agriculure and has set a pattern which the entire industry is seeking to emulate — but will pool their organizations which are spread wide over the earth, including manufacturing facilities in the United States, where they have five plants, in Canada where they have four, and England, Scotland, South Africa, France and Germany.

When the Ferguson system was established, some manufacturers made the mistake of thinking that the ultimate in design had been reached. Mr. Ferguson, however, constantly emphasized that this was only the beginning and that a multitude of new machines had yet to be created to stop the drift from the land and make farming prosperous, interesting and easier, with shorter hours.

During the past ten years Mr. Ferguson and his skilled staff in Britain and the United States have been working in the greatest secrecy on many new machines. The Massey-Harris directors had full knowledge of the success of the Ferguson system in the past throughout the world but it was only after a complete disclosure of all the new inventions, and a full investigaiton of new patents and applications for patents to give world wide protection for a multitude of new inventions, that they decided to make an offer to join forces with Ferguson.

The two organizations are complementary rather than competitive, and their coming together is expected to result in a great expansion of their operations and further increase of both Ferguson and Massey-Harris exports from the United Kingdom. Sir John Black, Deputy Chairman and Managing Director of The Standard Motor Company, which manufactures 'Ferguson' tractors under contract for the Ferguson Company, is planning to extend his company's plant to deal with the increased production which is expected to result from the Massey-Harris Ferguson amalgamation.

Sales and distribution of the combined companies' products will greatly benefit as a result of the association, and it is anticipated that the competitive position of the Ferguson and Massey-Harris dealers will be greatly strengthened and that many new and progressive dealers will join the organization.

The name "Ferguson" will continue to be carried on the tractors and implements of Ferguson design.

The administrative and policy making direction of Massey-Harris-Ferguson Limited will be the responsibility of Mr. James S. Duncan with the title of President, while Mr. Harry Ferguson, whose inventive genius has made such a vast contribution to world agriculture, has consented to accept the position of Chairman of the Board and will be responsible for the designing, engineering and application of the famous Ferguson system to the new company's products.

It is felt that the combination of the human and material resources of these two forward thinking and dynamic organizations, which have already demonstrated their world leadership, will be another great step forward in meeting the new and ever more pressing needs of world agriculture.

The transaction has received the approval of the Treasury of the United Kingdom and will be submitted to the shareholders of Massey-Harris Company at a special general meeting to be held in September.

LIFE IN THE OLD BOY YET

—Roche, in The Buffalo Courier Express

Why Wish For a Depression?

By T.W. PUE

During the recent federal election campaign two parties at one time or another did some wishful thinking out loud that went something like this: "Now that the Korea war is over we're going to have a deep, deep depression and the country will need our particular party with its theories to dig the country out of the slough of despond."

T. W. Pue

The idea is that under the Canadian system of economy peace brings economic chaos. This sort of talk goes on in considerable volume despite the numerous reassuring signs almost everywhere you look on the farm, indutrial and business landscape.

For one thing, since the war ended in Korea, there has been no shut-down of factories and prices are practically unaffected for all types of farm produce and manufactured goods. The Canadian working force is still at work in record numbers and at the same pay rates as before the Korea truce.

So much for the immediate effects of peace. What about the future economic picture for Canada?

Demand for automobiles, both new and used, is slackening off. That is chiefly because the motor industry in the last few years has turned out record-breaking numbers of cars. But compared with prewar times, the demand for cars is still phenomenal, and only a moderate cutback in production appears likely any time soon.

The boom in home building is probably due for a mild slackoff. Home appliances, naturally, would share in such a sag. Farmers' incomes have been on a gentle down-grade since 1947.

And that about winds up the list of grayish spots on the economic and industrial picture. The bright spots are much more numerous, and much more impressive.

Bright Picture

For one: In the second quarter of 1953 (April-May-June), average corporation earnings rose almost 25% above the totals for the second quarter of last year.

This figure comes from a survey by the Wall Street Journal of 416 companies in 27 industries —among them steel, television, radio, aircraft.

It is expected that most or all of these companies will show very healthy profits in 1953's third quarter — though they may not rise quite so high above the same period in 1952.

Another bright spot, in a manner of speaking, is the fact that defense spending is not likely to shrink substantially for some years to come. We say "in a manner of speaking" because guns, fighting ships, warplanes and the like produce no wealth. They are for purposes of destruction, and they eat up taxpayers' money. If the world could get away from arms-making, we'd all be better off.

It can't though, until and unless Russia breaks loose from Communism, or is broken loose. Meanwhile, heavy Government spending for defense does keep a lot of factories running and a lot of jobs in existence.

We also have various cushions available against a severe depression which we didn't have when the Big Wind hit in 1929.

Unemployment insurance covers tens of millions of workers. Federal bank deposit insurance virtually guarantees us against a wave of bank failures: Money in individual savings accounts is at a high level all over the country.

There is a big back-log of government civilian spending in the form of national and provincial highways, government buildings and a myriad of other projects have been pent up and held back on account of war spending priorities.

The family allowance cheques, old age and blind pensions and other regular government allowances would cushion any threatening economic slump. These payments continue regardless of the economic weather.

Good Days Ahead!

Instead of piling up surpluses, both the Provincial Government and the Ottawa administration could afford for a good many consecutive years to spend all the money they take in on providing work and income for otherwise unemployed persons. Every politician knows it would be suicidal for his government to allow the old conditions of 1929 to 1939 to to develope again.

We have a government at Ottawa which is determined to fight any serious recession for the most urgent reason it could have, namely, that it knows the Canadian electorate will blame the party in power whether it is at fault or not.

I'm certainly not predicting prosperity for all time to come. That would be idiotic. But from all the signs we can spot, it looks as if no drastic slump is coming in the near future; and I wish a lot of the current talk about a slump would dry up. A nation can chatter itself into a panic, just as a healthy person can worry and fool himself or herself into a real illness.

Voice of the People

FOR AMBITIOUS FARM BOY

I was very much interested in the Letter to Louisa headed, "Ambitious Youth Wants to Leave Home and Seek Career Elsewhere" signed "Fed Up." Please tell this lad to write to me regarding working on my farm near Drumheller or send me his name and address. I will be up there soon and would like to interview him.

Mrs. Chloe Colin.
430 N. Crestway, Wichita 8, Kans.

$1 for BRIGHT SAYINGS

The Editor will pay $1.00 for each child's saying printed. To qualify, item must be true, personal remarks of a child known to the writer. Address: Bright Sayings." P.O. Box 4430, South Edmonton.

As I let my three year old twins outside, after a three day rain, I was instructing them about not going in the mud, but to play on the steps.

The little boy was gazing thoughtfully at a chicken in the yard, for quite some time.

Suddenly he cried, "Look mama, that chicken is walking right in the mud with his bare feet."

Thorhild, Alta. N. M. B.

One day my five-year-old sister said, "When we get another calf let's keep it for a cow." I said, "It may be a bull calf." She replied, "Then we'll have a bull cow."

Volmer. A. V.

LETTER TO LOUISA

Wife Concerned For Children When Husband Refuses To Go To Church

Dear Louisa:

My problem is this. I married a man who is a fine husband in ever way but one. He has no religion. His father and mother were divorced and he never attended Sunday School when he was a child or was urged to go to church. My father was a minister and church work and Christian living were a great part in all of our lives. I keep on with my church activities but my husband is having a bad effect on the children now that they are getting older. They fuss about going to Sunday School and ask why the can't stay home and go swimming or play games with Dad. And Dad let them know what he thinks about it—that it is just an old timey notion of Mother's.

My husband said he was first attracted by me because I was so different from the girls he had known. He has the greatest faith in me and loves me very much but he just can't understand why I feel as I do about the church.

Can you help me? How can I make him see that Christian ideals are important for everyone?

MOTHER.

Answer:

You certainly do have a problem to solve but as you say that your husband loves you very much perhaps you can make him see your side and cooperate more than he is doing at present.

Ask him to think over why he has such faith in you and considers you the best woman who ever lived. Isn't it because of those Christian ideals you possess which he apparently holds so lightly?

Why can he depend on what you say and what you do? Isn't it because you were taught by your parents the difference between right and wrong and love for your fellowman? They were following the teaching of the church of their religion in making you understand the value of truth, faith and love for all people. So he should be very happy that you should be trying to teach your children the same ideals that have meant so much in the formation of your own character.

If he doesn't cooperate after that, you will have to keep on the best you can. Let the children have the afternoons with Dad but claim Sunday morning for yourself.

LOUISA.

Address your letters to: Louisa, P.O. Box 4430, South Edmonton.

"My First Flying Saucer"

By PAUL TATAREWICZ

TOMAHAWK — Last Saturday evening I, as no doubt several other people who chanced to look at the sky, spotted a "flying saucer." Having spotted it at 6:30 p.m., it appeared to be slightly north of Low Water Lake at about 5,000 feet. It was a circular, silvery-white object; contrasting plainly against the high cirrus clouds. From the earth it appeared to be the size of a twenty-five cent piece. It could not be seen to move but within an hour and a half or so, it had traversed far enough to be hardly visible. Its speed, I would estimate, was about 30 miles per hour. The cirrus clouds moved much faster than it. At 8:15 p.m. it appeared as a faint star although no other stars were visible at the time. Then it was slowly enveloped by the earth's shadow in the eastern sky.

My first impression upon spotting it was that the "men from Mars" were here. On second thought I immediately suspected it of being an experimental balloon such as a cosmic ray detector or the more popular radiosonde or weather balloon. This second supposition stems from my past experience with weather balloons.

Weather balloons are no new thing in this area. I have examined parts of two and heard of another one found in this region. Some time near the end of the second World War an object parachuted on Mr. Fred Rabe's farm, not far from his buildings. It was the regular type of instrument and had instructions on it as to where the finder should send it. At a similar time another such instrument was found in the Shoal Lake Ranch area by a farmer while making hay. I had a chance to examine this instrument several years ago. Setting aside the parachute and torn balloon, the instrument is contained in a weather-proofed cellophane-surfaced paper-board box, 4"x8"x9". The weight is approximately three pounds. Inside are: an aneroid barometer, a radio transmitter, and a dry cell battery. This particular unit was used to determine the air temperature, humidity and pressure at different air levels. It was sent up by the U.S. Weather Bureau.

The third such instrument was found in the Burtonsville area several years later. It was similar to the two mentioned above, except that it had a light attached to it. This was probably for tracking wind currents at night.

With the number of balloons issued by such agencies as the meteorological stations, the air force, the navy, and universities, it is not surprising to hear reports of flying saucers. For the air currents above the earth follow no set pattern and an object such as a weather balloon is entirely at their mercy. So we have objects in the sky moving with great rapidity; remaining motionless; being still and then suddenly whizzing away; etc.; and individuals not being familiar with these instruments of science assume them to be mechanisms from other nations or other worlds.

Every adult should take time to exercise physically once or twice a week.

One can spend a lifetime playing cards.

Forms Laid For New Curling Rink

ESTHER — Despite the heat curling enthusiasts have not forgotten next winter's curling games. They mixed the cement for the foundations of the new curling rink to be built directly south of the Esther Community Hall. Although harvesting has commenced several farmers showed up for the work.

Jehovah's Witnesses Assemble

Jehovah's Witnesses will gather for a three day assembly at the Elk's Hall, Wetaskiwin, Setpember 4, 5 and 6.

The three day assembly will feature Bible talks, pantomines, and demonstrations. Filled with Bible instruction, it will be both comforting and instructive for all in attendance.

The highlight of the assembly will be a public talk entitled, "What is your Destiny?"

The discourse will be presented by Mr. J. H. Nathan, a travelling representative of the Watch Tower Bible and Tract Sciety, on Sunday, September 6, at 3:00 p.m. The local congregation is anticipating a great Assembly, and is preparing to accommodate the many delegates that will attend.

Plamondon News Briefs

Born to Mr. and Mrs. Noel Plamondon of Trail, B.C., on August 15, a daughter, Noella.

Mr. Sullivan Plamondon and little while. They are going back to family are back in Avenir for a Edmonton where he is employed.

Mr. and Mrs. Dave Dragon went to Edmonton for the week-end.

Mrs. Alfred Gauthier and Mrs. Albert Gauthier motored together from Edmonton and are visiting friends and relatives.

Mr. Owen Bigelow came home for a few days and has gone back to their new farm in Wimburn.

Mr. Joe Cote of Donatville was visiting on Sunday at his brother's, Mr. Ephrem Cote.

David Plamondon and Eugene Plamondon are away on vacation. They are visiting their many friends and relatives in Trail, B.C.

Mr. Armand Bouvier of Atmore has started hauling his crops of honey into Edmonton. He hasn't as good a crop as he had last year.

Mr. Frederick Plamondon and sons have purchased a new thresher.

Mr. Sinclaire Gauthier has purchased a big Cockshutt combine.

The telephone line to Charron was broken last week and there was no service for the north line for a couple of days during the heavy rain. It was broken while moving Mrs. Lillian Johnson's house from Mr. Clifford Gagnon's farm. The house used to be Louis Chevigny's property down by the lake.

Mr. and Mrs. Albert Desjarlais are visiting her mother, Mrs. Julie Ferriere.

Mrs. Dale Mellot of Grassland was visiting her parents and friends and also picking raspberries at her parents' home.

Many people from Plamondon are spending their week-ends at Beaver Lake, where fishing is really good, and others go to Island Lake to pick blueberries and also to fish.

Mr. Armand Beaudoin from Saskatchewan has arrived in town. He is teaching in the Plamondon School and is staying at the Trio Caffes'.

Some of the school children are quite pleased to have their holidays extended regardless of the reason. schools are to open on the 14th of September. It also means considerable help to farmers with older boys going to school. They will have time to do some harvesting before going back to school.

Grassland News Briefs

Mr. and Mrs. Nick Semenchuk have returned from a holiday at Banff.

Mrs. Lillian McKenzie has had to return to the University Hospital, but is now on the way to complete recovery.

Grassland School has the new look, as the painters have now finished the job. Foundations are ready for one new school room and also a teacherage, which will be moved in from thde country.

Bill Hlushak is expected to be in Grassland shortly. He intends to tear down his old store building.

Mrs. Nancy Norquist of Lac la Biche has been visiting her sister, Mrs. Schendzielorz, at Grassland.

Derkos and Suttons were among those who attended the Wilf Carter show at Island Lake, west of Athabasca.

Con Semeniuk and his mother of Big Valley were visitors at D. Semeniuk's.

Rain has the farmers worried. Just as the crop was ready to harvest, the worst storm in years poured torrents of rain on the grain fields.

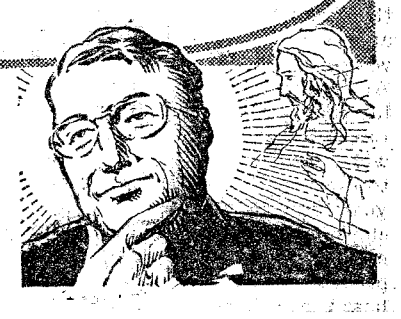
But . . . Would CHRIST Call You A Christian?



There is an amazing difference of opinion today as to what constitutes a real Christian.

One man regards himself as a good Christian because he applies the Golden Rule to everyday living. Another professes to be a follower of Christ even though he believes only part of the Savior's teaching. And some who call themselves Christian even go so far as to reject his divinity.

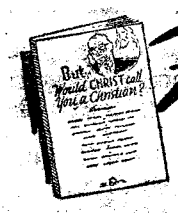
Too many people, unfortunately, are setting up their own standards of Christian character and Christian living . . . forgetting that Christ Himself set these standards for us.

The result is that many sincere people are confused . . . and are deceiving themselves with a minimum, or "so-so" kind of Christian living.

The Catholic Church teaches that the mere belief in Christ is not enough. For if it were, why did Christ take the trouble to show us by precept and example how we should live? Nor can we regard His teachings as just a social doctrine . . . subject to our individual amendments . . . when He made it so plain that our very salvation depends on living as He prescribes, not as we choose.

If you want to find out how good a Christian you really are, read—and read again and again—Christ's Sermon on the Mount. And if you read only the introduction . . . including the Beatitudes . . . you should realize how far short of Christ's standards are the standards which men set for themselves.

Perhaps you may feel that the ideals voiced by the Savior nearly 2,000 years ago cannot be applied in our modern times. And possibly you will not understand the practical meaning of Christ's references to "the meek," or "the poor in spirit," or "they who hunger and thirst for justice." In that case, we are happy to help you—without cost or obligation



Free

We shall be glad to send you free on your request, an interesting pamphlet explaining the meaning of the words Christ used in the beginning of the Sermon on the Mount . . . and how you can apply them to achieve a fuller, richer Christian life. Write today for your free copy. Ask for Pamphlet No. KC-29.

HEALTH UNIT NOTES

FROM THE SANITARY INSPECTOR'S DIARY

WATER SUPPLIES IN RURAL AREAS

Having decided upon the quantity of water required, and the reasons why the supply must be safe, we then come to the next important step which is:

LOCATION OF THE WELL

If we could visualize the underground layers of sand, gravel and clay, it would be an easy matter to select the best location for a well. Unfortunately this is not possible. Some use a person with "water divining" powers, but the success of this method varies considerably.

Any experienced well driller or water finder will always be willing to give the fullest information as to the data upon which he bases his opinion that water is to be found in a certain locality.

He will make full enquiries regarding the depth of all wells in the vicinity and the nature of the ground passed through in sinking these wells, and, having taken all available information, including surface contours, into consideration, he will, by exercise of judgment acquired with long practice in selecting sites for wells, be able to give a fairly reliable opinion as to whether water may or may not be found at a certain spot.

However, I must point out the driller is only a human being and occasionally drills a dry hole.

It is advisable in sinking a well to secure the services of an experienced well driller rather than call in an odd job man. A qualified driller should be able to advise a farmer as to the best type of well to sink for his particular circumstances and in accordance with the underground sources in his district.

He should also provide a proper log of the well, including a record of all strata passed through, so that if it is necessary to sink another well at a later date, or make repairs to the well, the owner will be in possession of full information.

THE EXACT SITE OF A WELL

Having decided upon the approximate location for a well, a knoll or piece of rising ground—never a depression — should be chosen for the actual site.

There is a common tendency, and perhaps a natural one, for the farmer to select the lowest possible point on which to sink his well. By doing so he may be saving the cost of several feet of digging and casing. In every case case where this had been done, it has been found impossible to prevent surface water from entering the well and in a course of a short time, usually following the first rainstorm, surface water and filth have been washed into the well, and the supply has become polluted and dangerous.

The first and all important consideration then in sinking a well is to select a site from which the ground will slope away in all directions, or if this is not practicable, to choose a location which can eventually be artificially graded to produce this condition.

A survey on the location of wells has shown that a common reason for well pollution is thoughtlessness in choosing a site, resulting in surface water and drainage having access to the top of a well. The well should be located as far away as possible from any source of pollution such as drains, ditches, cesspools, privies, sewage disposal fields, barns.

It must, of course, be conveniently situated for use, but the farther away it is from buildings, the less liable it is to pollution.

REAL ESTATE

FOR SALE—14 acres, good well, good buildings on No. 14 highway, south of Fultonvale school, 13 miles from Edmonton. Apply evenings. G. Buss, 9316 75 Ave., Edmonton, Alberta. PS 5-12

MARRIED SIXTY YEARS, COUPLE CONGRATULATED BY QUEEN

EDMONTON—Mr. and Mrs. Alex McGregor of 11170-70 Street in Edmonton who recently celebrated their diamond wedding anniversary, received a wire from the Queen congratulating them. Other congratulatory messages were received from Prime Minister St. Laurent and Premier Manning.

Many friends and relatives called to extend best wishes to the couple who received the guests at "open-house" held on the spacious lawn of their home.

Married in Kilmarnock, Scotland in 1893, Mr. and Mrs. McGregor came to Canada in 1903 and lived 30 year in the Calder district. They moved to Edmonton in 1941.

Mr. McGregor, who is 85 years old, is a retired mining engineer and served as a miner for fifty four years in Canada, Scotland and Australia. He is the holder of certificate No. 1, issued by the Province of Alberta in 1905.

The couple have three sons, Mr. William C. McGregor of Jasper Place; Mr. Alex McGregor, Edmonton and the late James McGregor, a veteran of World War I. Their four daughters are: Mrs. C. Mahan, Mrs. J. Abernethy, both of Edmonton; Mrs. A. D. Carruthers, Excelsior, and Mrs. A. McClay of Sunnyside, Alberta.

There are 11 grandchildren in the family, four girls and seven boys. They also have five great-grand-daughters and three great-grandsons.

To receive her guests, Mrs. McGregor wore an afternoon ensemble in navy blue crepe complemented with a corsage of yellow roses. She also carried a colonial bouquet of red roses and sweet peas.

Large Crowd Attend Show At Baptiste Lake

BAPTISTE LAKE—A gathering estimated at over 700 persons crowded into George Meyer's Island Lake Lodge to hear Wilf Carter and his troupe of entertainers. Led by the featured star and long-time favorite of western music-lovers, the program included numbers by Wilf's winsome and talented daughters, Sheila and Carol. The audience was also delighted by the music of Red Garrett and his Tennessee Pioneers.

Wilf received round after round of applause, and brought more than a few nostalgic tears to the eyes of members of the audience as he sang many of the songs which have brought him wide popularity over the past two decades.

Many remained for a dance which followed the program. Music was provided in a very able manner by Red Garrett and his Tennessee Pioneers.

Willow Ridge News Briefs

Mr. and Mrs. H. Etheltine and daughter Elaine, of Straffordville, Ont., visited Mr. and Mrs. M. Silverthorne and other relatives. Mrs. Etheltine and Mrs. Silverthorn are sisters. When the guests left, Mr. and Mrs. Silverthorn went with them visiting Banff, Field and other points.

Mrs. W. Heatherington, Joyce and Flossie, May, of Edmonton, spent a week with their relatives, Mr. and Mrs. S. Speers. Other guests were Mr. and Mrs. Bob Shoplands and Mrs. Sandstrom.

Miss Mary Mynio of Edmonton spent last Sunday visiting at the home of her parents, Mr. and Mrs. N. Mynio.

Mr. and Mrs. A. Howard had as their guests Rev. and Mrs. Bass (her sister) and daughter, of Longview, Wash. Rev. Bass held several gospel meetings at the school during his stay.

Mrs. S. Speers spent a few days in Athabasca hospital.

President Dwight D. Eisenhower is now experiencing the problems and decisions which make life trying, and short.

Housing For Students Urgent

Lack of housing in Edmonton is posing a major problem for some three hundred students who have already indicated their intention to attend the University of Alberta this fall.

This information was released today by the university's Student Housing Service, who are engaged as possible before the general influx onto the campus takes place for as many of the young people in early September.

Atmore News Briefs

Swathing was well underway, but last Thursday night's storm as well as Tuesday's rain will delay everybody.

William Duigon had his first grain combined, tested dry.

For the second time this summer Edmond Le Rouzic suffered damages by lightning hitting his wind charger.

Mr. and Mrs. Stanley Matoga of Spruce Valley and family were visiting their daughter Mrs. Frank Zak.

Mr. and Mrs. Stanley MatogaN Mallaig, their daughter Madeleine and son Bernard spent Sunday with Fr. St. Armaud, Mrs. Mageau's brother. They enjoyed Atmore very much, especially the friendly attitude of the people they met after mass. Richard, their eldest son returned home with his family.

Mr. Mike Illnicki was away to purchase himself a new school bus. Our school children are always under good care with Mike's good bus service.

Mr. and Mrs. Omer Paulin and their daughter Claire are on a business trip in the city.

Jim's blacksmith shop operated in Victor Genaud's old garage is always a busy place. Victor had Mr. Rene Legal to put the stucco on the front part of his garage. The sides have been completed by Mr. Bouvier in a nice light grey bucksiding. Victor will soon occupy his new garage of which Atmore will be very proud.

Mr. Arthur Boulanger was seen taking his car back from Rick Lake in his brother Alfred's truck. Most probably Eugene was not around to fix the busted radiator with cloth and chewing gum. In case of emergency add giner, and you will still go a reasonable distance as long as the roads are good.

The church is waiting for the last coat of stucco. Mr. Jean Le Rouzic and Victor Paulin gave a wonderful hand to Rene Legal for the third coat. Victor came back home nearly as white washed as the church.

Caslan News Briefs

Mr. and Mrs. Elmer Johnson were recent visitors in Edmonton.

Mrs. Alex Adasznski was visited for a few days by relatives from Smoky Lake who came to see her before she leaves to join her husband in B.C.

Mrs. J. Bury went to Edmonton to visit with her son and daughter.

Mr. and Mrs. George Gordey and family have moved into their new home in Caslan.

The picture show "At Sword Point" which was held recently at the Caslan school was well attended.

Farmers who had begun cutting their grain are held up in this work due to the heavy rains.

STOP and EAT at the
HOTEL CAFE
Youll enjoy the delicious home cooked meals, light lunches, soft drinks, confectionery.
Operated by Mr. and Mrs. G. A. Grovelle, Atmore

Charron News Briefs

Congartulations to Mr. and Mrs. Joe Semeskavich on the birth of their daughter, Gloria Katherine.

Mr. Harry Fisher motored from High Prairie to join his wife and family. After spending a few days they all motored back home.

Miss Shirley Fischer spent a few days in the hospital.

Miss Theresa Gauthier spent a few days with her sister, Mrs. Edmond St. Jean, in Edmonton.

Mrs. Nick Shapka has been kept busy entertaining her relatives. Her cousin, Doreen and husband from Calgary were out for a week, then her mother and father of Drumheller were out.

The hail insurance adjuster was out to see the insured crops which had been damage in Charron.

Mr. and Mrs. Noah St. Jean spent the week-end with Mr. and Mrs. Velmore St. Jean. They all motored to Lac la Biche to see the show, "Prince of Peace."

Mr. George Shapka has done a lot of planing for people in the district.

Little Ronald Cote has the mumps.

Mr. Don Fregin is back on his farm by the river.

Intelligent conversation is best saved when some people we know are encountered.
